Dear FCC:

I am writing to complain about the proposed changes to the Universal Service Fund and requesting that the FCC investigate this matter further before changing the current policy. Your proposed \$1.00 per month charge for all wireless phones will directly impact my ability to retain my wireless service.

I do not think it is fair to charge EVERYBODY \$1.00 dollar regardless of how they use their wireless phone, especially for a low-volume user that relies on wireless service for safety and security, not interstate calls. The current policy is fair, based on interstate usage, and should be left alone. Please do not penalize us. Keep this fair.

I live on a fixed income of \$749 a month, and use my pre-paid wireless phone ONLY for emergencies. I can't afford to pay more every month and still pay rent, buy food and keep the lights on!!

Consider giving low-income families a break and create a "life line" wireless service. I have this service for my regular phone...it is the only way I can afford it.

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,

Jack Kinsey
